*Very old fellow Dôjô P. OLIVIER (they have known each other since the 1990s), Claudia made for the second time visit to our group Aikidoka.*

*His visit was again motivated by the desire to participate in Stage Shimizu Sensei, she has diligently followed (see our account).*

*Two days before the course, she arrived in Paris in the heatwave.*

*Before arriving at the dojo, detour through the countryside, where she picked ears of wheat and other flowers that were to form the bouquet at the right Shomen (or kamiz), Wall of Honor, next to the Katana Kake and calligraphy TENDO appreciated by Sensei.*

*Successful operation, dear Claudia! Your package has been provided very popular with summer colors.*

*Trapped, Claudia, whose intention was to participate as a single student, was found to lead the training, almost in spite of it ...*

*What has set fire to the powder: reckless, and not knowing "the animal", she told Pascal during the trip that she wanted only train with the students.*

*That was more to be catapulted to the center of the dojo, with responsibility for directing the training and preparation please!*

*Come, come, we all know that these things are at the discretion of the inspiration, and without preparation. Thank us, Claudia ... we thank you for the wonderful lesson that you gave to our group: a technical fluid and smooth that made everyone happy.*

*See you soon then!*
